Monday, 20 April 2020

Dear parent / carer,

I hope you are all keeping well and have been able to enjoy the good weather we have had recently. Today, we are launching Seesaw, an online learning platform, which allows children to access work set by their teacher. Later today, you should receive a unique Text Code that will allow your child to access the website and start completing the activities that are on there. The web address you will need is <https://app.seesaw.me/#/student/login> and when your child has logged in, they will need to click on the 'Activities' button which is on the right-hand side of the screen.

Teachers have started uploading activities, which the children can then complete online so that their teacher can see what they have done. Alternatively, children can complete tasks on paper then upload a photo of what they have done. Your child's teachers and teaching assistants will be the only people who get to see what has been completed. There will usually be around 2 activities a day to complete although you may see some activities for the following days being uploaded in advance.

This is a really big step for the school to make and as with all technology, it might not always work smoothly so please bear with us if we have any teething problems.

Yours faithfully,

M. Curtis

Matt Curtis
Deputy Headteacher
